

UNDERGRAD RESEARCH **OPENINGS**

Position Details

**THE FOCUS OF DR. ROSSER'S LAB IS WORKING
PRIMARILY ON TROPICAL BUTTERFLIES AND THE
PLANTS THEY INTERACT WITH.**

- Dr. Rosser is looking to take on up to 2 students for the Fall 2026, Spring 2027, and Summer 2027 terms
- The Rosser Lab is focused on understanding how new species form and evolve, addressing these questions by using tropical insects and plants
- Looking for any student who is interested in ecology, evolution, and biodiversity is encouraged to apply
- Depending on research interests, research projects may involve fieldwork, desk-based research (such as data analysis and coding), or wet-lab research
